ROE - Recovery of Evidence - DataStick Pro thumb drive - 911 audio, radio traffic, and training files - From - Liz Rucker

Activity Report

Case Numbers: 2025-0205975 (DEATH INVESTIGATIONS - LAW ENFORCEMENT RELATED -FIREARM, DEATH INVESTIGATIONS - LAW ENFORCEMENT SHOOTINGS - LETHAL (5U))

IR #(s): 2025-0205975-00047

Activity Date: 2025-12-03

Created Date: 2025-12-15

Author: Steven Kennard

Narrative:

On December 3, 2025, at approximately 12:35 PM, Tennessee Bureau of Investigation (TBI) Special Agent (SA) Jonathan McGowen received from Metro Nashville Police Department (MNPD) Detective Liz Rucker, a black DataStick Pro thumb drive. The drive contained the following files:

- 911 call from incident
- Recording of officer radio traffic from the incident
- CAD card for radio traffic and 911 call
- Officer Ynzunza training files
- Officer Maxwell training files

SA McGowen transported the thumb drive to the TBI headquarters where it was held and then provided to SA Kennard on December 8, 2025. The thumb drive will be maintained by SA Kennard in the working casefile and the files within will be provided to the DA's office upon request. SA McGowen completed a property receipt reflecting this activity which will be attached to this report in the case file management system.

Recovery of Evidence - Items from ME's office - From - Danielle Caceres

Activity Report

Case Numbers: 2025-0205975 (DEATH INVESTIGATIONS - LAW ENFORCEMENT RELATED -FIREARM, DEATH INVESTIGATIONS - LAW ENFORCEMENT SHOOTINGS - LETHAL (5U))

IR #(s): 2025-0205975-00036

Activity Date: 2025-11-26

Created Date: 2025-12-11

Author: Steven Kennard

Narrative:

On November 26, 2025, Tennessee Bureau of Investigation (TBI) Special Agent (SA) Steven Kennard received items of evidence from Davidson County Medical Examiner's Office Evidence Tech, Danielle Caceres. The items were associated with the autopsy of BRADLEY TARNOR. The list of items received is as follows:

- Projectile from back – Tarnor
- Palmprint cards – Tarnor
- Fingerprint cards – Tarnor
- Hair sample – Tarnor
- DNA Standard – Tarnor

Once all items were received, SA Kennard completed a Medical Examiner's office receipt and was provided with a copy which will be attached to this report. The evidence was then taken back to the TBI headquarters where it was repackaged in a TBI evidence bag. All five items were placed inside the same package and will be transferred to the TBI Evidence Management Unit at a later date.

Narrative:

INTRODUCTION AND NOTIFICATION

On November 7, 2025, at approximately 6:30AM, Special Agent (SA) Mary Catherine Robinson received a call from Tennessee Bureau of Investigation (TBI) Assistant Special Agent in Charge (ASAC) Nathan Neese requesting assistance on an officer involved shooting in Nashville with the Metro Nashville Police Department (MNPD). ASAC Neese advised an unknown male had been shot by two MNPD officers and his status was unknown. ASAC Neese advised SA Robinson would be assisting the case agent, SA Steven Kennard, by processing the crime scene itself.

SA Robinson arrived on the scene at the above-mentioned location at 8:00AM. The temperature outside was mild but very windy. Upon arrival, SA Robinson observed the area in front of the Greyhound Station front door was taped off with yellow crime scene tape. The area in front of the Greyhound Station was small and encompassed only the bus station. There was an intersection to North and South of the address and no other businesses along this stretch of Rep. John Lewis Way.

SA Kennard was already on scene in addition to SA Jonathan McGowan, SA Jeff Moseley, SA Bobby Simmons, SA Andy Vallee, and Special Agent in Charge (SAC) Josh Savley.

SAC Savley made contact with members of the Metro Nashville Police Department who provided a brief of the situation. The officers involved in the shooting were identified as GREY MAXWELL and RYAN YNZUNA. Their marked police vehicles were identified inside the yellow crime scene tape. The subject that was shot had been transported to the hospital and remained unidentified as agents worked the scene. Agents were advised MAXWELL and YNZUNA responded to the area for a call for service at the bus station. The caller stated he was feeling violent and had a weapon. MAXWELL and YNZUNA arrived on scene and immediately identified a male white walking in the middle of the road with his hand in his backpack. The officers confronted the male, but the male did not respond to their demands. The male then pulled his hand out of his backpack and pointed it toward the officers. The officers then fired at the male. The male was transported to Vanderbilt Hospital and declared deceased. The male was later identified as BRADLEY SHANE TARNOR when agents located his government issued identification in his personal items still on scene.

At approximately 9:00AM, SA Kennard requested to speak with the involved officers. Both officers deferred their interviews at the advisement of their representation.

INITIAL WALK THROUGH AND OBSERVATIONS

The initial walk through was cloudy and extremely windy as storms were forecasted for later in the day. The temperature was mild with low humidity.

Agents observed three marked police vehicles inside the yellow crime scene tape. Additionally, a taxi van and two sedans were also inside the crime scene tape. Two of the marked police vehicles and the taxi van were near the intersection of Division and Rep. John Lewis Way. Another marked police vehicle and two sedans were further down Rep. John Lewis Way at the intersection of Lafayette and Rep. John Lewis Way. Between these two lines of the vehicles and in the middle of the crime scene, agents observed clothing and personal items on the ground belonging to TARNOR. Agents believed these to be the clothes TARNOR was wearing before officers and medics provided medical aid. A black backpack was observed near TARNOR'S clothing in the roadway as well. Spent cartridge casings were observed on the ground near the taxi and marked police vehicles on the Division side of Rep. John Lewis Way.

CRIME SCENE PROCESSING/DOCUMENTATION

After the initial walk-thru of the scene, all agents began to prepare for processing. SA Simmons began taking initial photographs. Once this was completed, all evidence was marked with evidence markers and photographed appropriately. The following is a list of items of evidence along with the corresponding evidence marker:

1. One (1) spent cartridge casing near the front of the yellow taxi van
2. One (1) spent cartridge casing underneath the yellow taxi van
3. One (1) spent cartridge casing to the left of the yellow taxi van
4. One (1) spent cartridge casing near the personal items in the middle of the crime scene
5. One (1) spent cartridge casing near the personal items in the middle of the crime scene
6. One (1) spent cartridge casing between the two marked police vehicles
7. One (1) spent cartridge casing near the front of marked police vehicle 9205BB
8. One (1) spent cartridge casing near the driver's side of marked police vehicle 9205BB
9. Black backpack in the middle of the crime scene
10. Clothing near the backpack in the middle of the crime scene
11. One (1) cartridge casing at the back of the yellow taxi van
12. Defect in Buick, ****photograph only, not collected****
13. One (1) spent bullet fragment underneath the Buick
14. Older defect in Buick, ****not related****
15. Black suitcase with personal items located inside the bus station

After items were marked with a corresponding evidence marker, they were photographed in place before collection. This was completed around approximately 9:30AM.

Agent's Note: Items were not measured into the scene due to the extremely windy conditions. Evidence was shifting around the scene due to the wind, so a decision was made to photograph all items diligently and collect them before the weather conditions worsened.

SA Robinson completed a rough sketch of the scene starting at approximately 8:12AM. A refined crime scene diagram will be completed and will also be serialized separately within the case file. After all photographs were completed, all items being taken were collected and packaged by the agents at the scene.

CONCLUSION

This confidential document is the property of TBI. Its contents are not to be distributed outside of your agency.

Upon completion of the packaging of the evidence, all items being retained were taken by SA Kennard and transported to the TBI headquarters to be placed in Evidence Management. All agents cleared the scene at approximately 9:40AM. A property receipt for all items taken from the scene was completed and will be attached to this report.
